

## Professional Summary

Over 20 years of experience across various level of construction, backed by a rich background in public utilities management and a deep understanding of field operations. Committed to improving the construction industry and fostering new leader by solving challenges as a team

## Experience

### Building the Future at BZI

#### INNOVATION & LEADERSHIP IN STEEL ERECTION AND WALL SYSTEMS

2016, I've driven innovation at BZI, developing and implementing new systems and standards in the steel erection industry. Pioneered and established the Wall Division, assembling top talent and integrating all aspects from business development to field teams for Insulated Metal Panels and Concrete Tilt Walls.

### Emergency Services

#### WILDLAND & STRUCTURE FIREFIGHTER | PARAMEDIC | EMT

Certified in multiple emergency response roles from 2000-2020, including Firefighter, EMT, and Paramedic. Contributed as a volunteer for over two decades ensuring community safety and training other in life-saving skills.

### Lifetime of Hands-On Experience

#### GENERAL CONTRACTOR | CABINETRY | UTILITIES

A lifetime in construction, beginning work alongside my father, has equipped me with extensive hands-on experience. Roles have ranged from framing and concrete work to roofing and finish carpentry. Managed multiple utilities departments, ensuring operational safety and customer satisfaction.
